Work

Developer Evangelist at Panzura (11/2018-present)

Created simple Node apps used to monitor and load-test the API for Vizion Elastic, Panzura's Elasticsearch as a service app.

Wrote a series shell scripts to help users easily install and configure beats and connect them to our Elastic app.

Wrote guides on how to connect virtual machines (such as AWS ec2) to our Elastic App to monitor logs and metrics and a basic guide on using elasticsearch as an API.

Web Development Instructor at Hello World Studios (1/2019-present)

Teaching HTML, CSS, and Javascript to elementary school students in an after-school setting.

Jr. Full Stack Web Developer at The Sails Company (4/2018-11/2018)

Developed full-stack applications, within agile team, in real estate and legal services industries, primarily using Sailsjs (a Nodejs framework) with a Vuejs front end. Developed integrations with 3rd party APIs. Provided support in the open-source community for Sailsjs.

Dorm Manager at Texas School for the Blind & VI (8/2014 - 7/2017)

Supervised 8 direct-care staff; led staff trainings; responsible for scheduling and timekeeping; coordinated activities and communications between teachers, residential staff, parents, and administrators; developed individualized life-skills and recreational programming for students
